

THE CENTER ON PARENTING AND OPIOIDS (CPO)
PRESENTS:

LONGITUDINAL POWER ANALYSIS AND EXPERIMENTAL DESIGN FOR GRANT SUBMISSIONS

PRESENTER

DAVE DEGARMO, PHD
UNIVERSITY OF OREGON

DATE/TIME

MARCH 2nd, 2021
11:00am-2:00pm PST

WEBINAR DETAILS

CPO presents Dave DeGarmo, PhD. Dr. DeGarmo's workshop will focus on power analyses for gold standard two-arm intervention designs and more complicated RCTs. Content will cover longitudinal data and missingness, simulated data, and plotting functions. Materials will be provided and annotated for R and Mplus with interactive opportunities for participants to tailor syntax and functions.

ABOUT THE PRESENTER

Dave DeGarmo, PhD, is interested in the substantive evaluation of family stress models and in program evaluation of preventive intervention and treatments for families at risk for compromised parenting. His active research involves an intervention for divorced fathers and multimodel comparisons of interventions for military parents. A major focus is on independent and interactive effects of fathering.
